

AARABI ALEXANDER

"Your first choice for treasurer"

ana9@student.le.ac.uk

Being treasurer is a huge commitment that I would be excited to take on. You need a great deal of organisation, proactivity, communication, and teamwork to get LUSUMA running at peak performance. All of which come easy to me after 2 years as Head of Finance for the Canadian Cancer Society's fundraising event. During this time, I worked with other schools in the city, my school's staff, and a committee of over 30 people to handle all funding for the event and the donations coming in. I managed and allocated around 1000\$ towards the actual event, as well as processed over 100,000\$ worth of donations each year.

Prior to Leicester, I completed one year of a Chartered Accounting degree at the University of Waterloo, Canada. There I both learned exactly how to manage bookkeeping, come up with financial plans, and handle my schoolwork on top of clubs and events (such as large scale community tax clinics and fundraising for cross-country business competitions).

As a Canadian I am guaranteed to be friendly and kind to all, but don't be fooled, I am no pushover. When there needs to be tough decisions made, I'll make them. Considering each of the sub-committees needs, the student's needs, and LUSUMAs capabilities are a necessity for the job. I want to increase sponsorship from local businesses so that we can maximise money coming in while minimising what is spent. This way we can improve facilities for sports socs and make events better each year!

I have absolutely loved my time here in Leicester so far and truly want the next round of medical student to have just as great of a time as I have. LUSUMA was a massive part of intro-week, socials, clubs, and loads of other things that make Leicester so great! But none of this can be done without money, and I am more than willing to handle the numbers so you guys can keep doing the things that make you happy!

Thanks for all your support!
