

Jeena Mistry

LUSUMA Academic Officer

My name is Jeena Mistry. I am first year medical student and I am running for LUSUMA Academic Officer and would really appreciate your vote!

Relevant Experience:

Course Representative: For the past two consecutive years I have been elected as the Course Representative. Through regular **communication** with my peers that I represent I have ensured that all issues are properly **listened** to and regular updates and **feedback** is given throughout the year. I have also **worked alongside members of the department of medicine** (and biological sciences), something which would be beneficial when **collaborating** with them and you during the position of Academic Officer.

Teaching Assistant and Tutor: I have worked as part of a **team** with teachers and students over a long period of time to **provide academic support**. I was required to **collaborate** with teachers to **create** lesson plans and **organise** my own resources for tutoring.
