

Sharmilaa Lagunathan

Ball Secretary

Hi, I'm Sharmilaa and I would like to be one of your Ball secretaries for next year.

Why me?

I have previous experience in organising events such as leavers' ball, prom and pub crawls. My commitment and organisation made these events a success and I really enjoyed being part of creating some special nights for my classmates and myself.

In year 13, I worked alongside a team to organise prom which required teamwork but also good communication skills especially when arranging the venue and food. This was also done during my A-levels which meant time efficiency was crucial to balance my studies and can organise the prom without any problems. I can use these skills to ensure the smooth running of the Ball and this will make sure I will put on a great night.

I was put in charge of the leavers ball which meant I had to be self-motivated and proactive. As part of my role I had to book the venue, arrange the photographer and handle the expenses. This shows that I have previous experience in having the responsibility of budgeting and organising and I am confident that I will be able to do the same as Ball secretary.

What will I do?

After this year's fantastic winter ball I have some ideas to make the event even more memorable

- Hire a bigger venue so that more people can come
- Bigger dance floor so that everyone especially the CTFs can have their dance off
- Have a snapchat filter to make the night even more unforgettable

I like to think of myself as an approachable person and so think that people would be able to approach me with their opinions and ideas and so I would be able to tailor the night to everyone's preferences. I hope you can consider me as I really think that I can bring a lot to this role and help to organise a night we will never forget. If you would like to contact me or ask any more questions s1568@student.le.ac.uk.
