

Simon for LUSUMA President 2017-18

My name is Simon and this is my 6th year at Leicester which means i'm irritable and old. I'm running for President this year as after going to quite a few MedSoc conferences it starts to dawn on you that Leicester has a very young committee normally which is a shame as some things can get forgotten year on year. This year we suggested we should make it easier for older years to be on committee. I went away and thought about some things. Here are some of my thoughts:

Academic

- Lead a team to generate notes that can be reviewed by appointed "Academic leads" based on the suggestions of students reading through them
- Develop a flashcard based learning programme
- Publish OSCE Checklists for common examinations in IPE/FPE

Social

- Organise a Med School social alongside the Doctor's mess to foster closer relationships
- Work closely with the new role of Alumni & Electives officer to produce and maintain an online resource

Welfare

- Anonymous issues/concerns web form
- Open communication with pastoral support to better signpost students

Sport

- Look at ways to reduce the burden of sports pitch hire in order to deliver more sport & provide clubs with more funding
- Support Sports secretary and VPSS to deliver Varsity and help aid communication with sports teams

My best friend just bought a house. I'm eating this Pop-Tart for lunch.
